\*J. E. Baker, M.A.P.H.I., C.R.S.I.

Deputy Chief Public Health Inspector: \*K. McIntyre, M.A.P.H.I., Cert.S.I.B.

District Public Health Inspectors:

\*J. WILCOCK, M.A.P.H.I., Cert.S.I.B. (resigned September, 1957)

\*K. V. SPROAT, M.A.P.H.I., Cert.S.I.B. (one vacancy)

Pupil Public Health Inspector:

D. HITCHCOCK (appointed December, 1957)

Clerical Staff:

A. H. Baker, Chief Clerk to Public Health Inspector.

Miss G. Puttifer.

Miss V. Neaves, Clerk to Medical Officer.
Miss P. Bennett.

Note:—\*Hold Meat and Food Inspection Certificate.

# HEALTH DEPARTMENT, WOODVILLE TERRACE, GRAVESEND.

MR. MAYOR, MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have much pleasure in presenting to you my Annual Report on the health of Gravesend for the year ending 31st December, 1957.

The Registrar General's estimate of the population is now 46,930. The relatively high birth rate mentioned in my last report has been maintained, there being 793 live births registered. The crude birth rate for 1957 was 16.9 per 1,000 population, and the corrected birth rate 16.39 which compares with 16.0 for the "Smaller Towns" and 16.1 for England and Wales generally. The crude death rate per 1,000 population was 9.48, the corrected death rate 10.71 and this compares with 11.5 for England and Wales. The infant mortality rate was 13.87.

It will be remembered that in view of the increase in the death rate from cancer of the lung in England and Wales as a whole, I reported on the matter to the Health Committee and pointed out that there was the strongest statistical evidence showing that cigarette smoking was a major cause of lung cancer. I emphasised also that in men the liability to lung cancer increased with the number of cigarettes smoked, but there were of course other factors that played a part.

The Council has given careful thought to the question of atmospheric pollution. The monthly records obtained from instruments at the two collecting stations are summarised on page 9.

Rehousing has been an important concern of the Council. During 1957 the Corporation completed 67 houses.

We are very fortunate in Gravesend in having a number of voluntary organisations doing valuable and much needed work. There is, for example, the Gravesend Old People's Welfare Committee, the Social Club for the Hard of Hearing, the Tuberculosis Care Committee, the Society for Mentally Handicapped Children and the Gravesend and District Social Workers Association. A short note on two of these Societies will be found in this report.

In conclusion, may I express to the Chairman and to every member of the Health Committee my appreciation for the keen interest they have always shown in the work of the Health Department and for their unfailing support throughout the year. My thanks are due also to my staff for their continued enthusiasm and co-operation.

I am, Mr. Mayor, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

H. S. DAVIES,

Medical Officer of Health.

#### INDUSTRIES AND EMPLOYMENT.

The chief industries in the locality are—Paper making, cement, light and marine engineering, cable and telegraph works, printing. A number of men are employed in the Merchant Navy, on river craft, and in dock work.

Unemployment has remained at a low level, but statistics which apply only to the Borough are not available.

			Т	otal	111

### 3. COUNTY AMBULANCE SERVICE.

Eleven ambulances (6 stretcher and 5 sitting cases) are stationed at the Harden V.C. Memorial Hall, Hall Road, Northfleet. Telephone—Gravesend 5257/8.

#### 4. Home Nursing Service.

The County Council provides a service free of charge for the attendance on persons whose doctors require them to be nursed in their own homes. In cases of chronic sickness in patients who are over 70 years of age, a night service is provided. The nurse's attendance is normally arranged by the doctor, but the name and address of the appropriate nurse for any particular district is obtainable from the undermentioned District Office of the County Council:—

Arthur Street, Gravesend. (Tel. Gravesend 166).

The following services are provided by the County Council:—

#### 5. MATERNITY AND CHILD WELFARE CLINICS.

- (1) Ante-Natal Clinics.
- (2) Infant Welfare Clinics.
- (3) Diphtheria Immunisation Clinics.
- (4) Dental Clinics.
- (5) Speech Therapy Clinics.

#### 6. MIDWIFERY SERVICE.

There are six County Midwives serving the Gravesend area.

Name	Address	Telephone Number
Miss L. M. J. Larner,	31 York Road, Gravesend.	Gravesend 4111
Mrs. K. M. Polson,	15 Taunton Vale, Gravesend.	,, 4707

#### MATERNITY AND CHILD WELFARE.

Under the National Health Service Act, 1946, the administrative arrangements for the Maternity and Child Welfare Services passed from the Borough Council to the Kent County Council.

#### NOTIFICATION OF BIRTHS.

Notification of births are sent direct to the County Medical Officer at Maidstone.

The number of live and still births occurring in Gravesend during the year was 781. After correction for those whose usual residence is elsewhere (i.e., 133 transferred "out" and 173 transferred "in") the number properly belonging to the Borough was 821 (793 live births and 28 still births) compared with 808 in the previous year.

#### PARTICULARS OF BIRTHS OCCURRING IN GRAVESEND.

#### HEALTH VISITORS.

Nurses with special qualifications are appointed for the purpose of giving advice as to the care of young children, persons suffering from illness and expectant and nursing mothers and as to the measures necessary to prevent the spread of infection.

The following Health Visitors are employed in the Gravesend area and can be contacted at their respective welfare centres:—

Miss M. C. Craddock, S.R.N., S.C.M., Windmill Street Welfare Centre. Mrs. E. O. Curling, S.R.N., S.C.M., Windmill Street Welfare Centre.

Miss D. J. Gann, S.R.N., S.C.M., Whitehill Welfare Centre.

Miss E. M. Kenworthy, S.R.N., S.C.M., Whitehill Welfare Centre. Miss C. James, S.R.N., S.C.M., "The Nest," Welfare Centre.

#### PREMATURE INFANTS.

Premature infants nursed at home are visited regularly by the Midwives and Health Visitors.

The following special equipment is available for loan at the Welfare Centres:— Draught-proof cot with detachable lining, suitable warm clothing, hot water bottles, special feeding bottles, thermometer, mucus catheter, etc.

MATERNITY AND CHILD WELFARE CENTRES.

The three Welfare Centres in the Borough are Windmill Street (Central), Whitehill (King's Farm Estate), and "The Nest" (Denton and Chalk district).

The sessions are as follows:—

"The Nest" Windmill Street. Whitehill. Afternoon Afternoon Child Welfare Clinic— Child Welfare Clinic— MONDAY Diphtheria Immunisation Medical Officer in attendance; Health and Vaccinations: Health Visitors Con-Visitors Consultations; Baby weighing; sultations; Baby weighing; Sale of Sale of Foods, etc. Foods, etc. Morning and Afternoon Afternoon TUESDAY Ante - Natal Clinic Speech Therapy and Midwives' Clinic Clinic.

of Foods, etc.

Midwives' Clinic.

Afternoon Afternoon

FRIDAY Child Welfare Clinic— \*Ante-Natal Clinic.

Child Welfare Clinic—
Medical Officer in attendance; Health Visitors Consultations; Baby weighing; Sale of Foods, etc.

\*First and third Fridays in each month.

#### ATTENDANCE AT CHILD WELFARE CENTRES.

The attendances at the three Welfare Centres during the year were :—

(a)	Individual children under 1 year of age	595
(b)	Individual children between 1 and 5 years	936
(c)	Total number of attendances of all children under 5 years	12,746

For the year 1956 the figures were:—

(a) 570 (b) 1,387 (c) 12,635

#### LADIES' VOLUNTARY COMMITTEE.

The Ladies' Voluntary Committee continue to serve at the three Welfare Centres in the town and their work is greatly appreciated.

#### ANTE-NATAL CLINICS.

Ante-Natal clinics are held once a week at Windmill Street and Whitehill Welfare Centres and once a fortnight at "The Nest" Welfare Centre. A lady doctor is in attendance at each session.

In all, 230 expectant mothers attended the clinics. The total attendances for the year were 449.

#### WOMEN'S WELFARE CLINIC.

Married women requiring advice are referred to the Gynaecological Clinic at Gravesend and North Kent Hospital, by their private medical practitioners. This clinic is held on Tuesday afternoons at 4 p.m.

#### DENTAL TREATMENT.

Dental treatment for expectant and nursing mothers, children under five years and school children is provided at the Dental Clinic, Manor Road.

The clinic is open at the following times:—

Monday	A.M. 9.0 to 10.30
Tuesday, Wednesday and Thursday	A.M. 9.0 to 12 noon P.M. 1.30 to 4.0
Friday	A.M. 9.0 to 10.30

#### OPHTHALMIC TREATMENT.

The County Ophthalmic Clinic is held at the Gravesend and North Kent Hospital. Further details on page 12.

## MINOR AILMENT CLINICS—SCHOOL CHILDREN.

These clinics are held at the following times:—

Windmill Street	Monday, Wednesday and Friday	9 a.m. to 10 a.m.
"The Nest," Denton	Tuesday	9 a.m. to 10 a.m.
Whitehill, King's Farm	Tuesday	9 a.m. to 10 a.m.

#### REGISTRATION AND SUPERVISION OF NURSING HOMES.

One home for Medical Cases, chiefly old people—ten beds. This home is supervised by the Kent County Council under Section 37 of the National Assistance Act, 1948.

#### ARRANGEMENTS MADE FOR THE DISCOVERY OF UNREGISTERED HOMES.

- 1. The Returns from the local Registrar are examined to check the addresses at which births and deaths occur.
- 2. Health Visitors and the staff are asked to keep a look out for unregistered homes.

#### MORAL WELFARE—CARE OF THE UNMARRIED MOTHER AND HER CHILD.

This work is now a function of the Kent County Council. Kendall House, Pelham Road, Gravesend, opened in 1946 by the Rochester Diocesan Association for Moral Welfare, has an experienced Church Army Sister in charge. A representative of the Council serves on the Moral Welfare Committee and a grant was made to the Association from the funds available under the Sunday Entertainments Act, 1932.

#### Welfare of Old People.

The Gravesend and District Old People's Welfare Committee have always realised the value of home visiting. They have found that much can be done to relieve the loneliness of old people and to help them to maintain a brighter outlook. This is especially true in the case of many who rarely feel well enough to go out by themselves. The home visitors also make recommendations in regard to the coach outings mentioned in my last report. Two thousand old people from Gravesend, Northfleet and Shorne, have enjoyed visits to the seaside and to the country. There is a rota of eight volunteer drivers for the coach.

The meals-on-wheels service has continued successfully. The chiropody service has been extended. It is hoped to have another "Old People's Week" at an early date. Many of the elderly have been referred to the Geriatric specialist who arranges for occupational therapy in suitable cases.

There can be no doubt that work of great value has been done and I cannot speak too highly of this Committee.

#### THE GRAVESEND AND DISTRICT SOCIAL CLUB FOR THE HARD OF HEARING.

The work of this organisation was described in my last report in which reference was made to the importance of the lip-reading classes held at the Gravesend Technical College. It was emphasised also that the social club for the hard of hearing brought renewed integration with the community to a group of people suffering from a difficult handicap. There has been an interesting social programme including a number of lectures, a ballet display, a hobbies exhibition and visits to places of interest.

NATIONAL ASSISTANCE ACT, 1948, Section 47, and

NATIONAL ASSISTANCE (AMENDMENT) ACT, 1951.

Removal to Suitable Premises of Persons in Need of Care and Attention.

All cases were dealt with successfully by persuasion, and it was not necessary to make use of the above legislation.

### SANITARY INSPECTION, HOUSING AND FOOD.

Mr. J. E. Baker, Chief Public Health Inspector, has supplied the statistics relating to Sanitary Inspection, Housing and Food Inspection.

# **SECTION "C"**

#### SANITARY CIRCUMSTANCES OF THE AREA.

#### WATER SUPPLY.

PUBLIC DRINKING SUPPLIES.

The Medway Water Board supply water to the Borough.

The water has been satisfactory—

- (a) in quantity. (b) in quality.

The water is hard and there is no evidence of plumbo-solvent action.

Twelve dwelling houses are supplied from public mains by means of stand pipes. In the remainder of the Borough the supply is direct to houses. The twelve houses in question are scheduled for demolition procedure.

#### BACTERIOLOGICAL EXAMINATION.

Fifty-two samples of water were taken for bacteriological examination and were all reported to be satisfactory with the exception of one from Leith Park Road well. They were taken from the following sources:—

Leith Park Road Pu	mping	Station-v	vell (untre	eated)		• •	13
,, ,, ,,	,,	,,	reservoir (	(treated)			13
Domestic supplies			• •	• •	• •		24
Drinking fountains	• •	• •	• •	• •	• •		2
							52

#### CHEMICAL ANALYSIS.

Two samples (one from Leith Park Road well and one from the reservoir) were taken for chemical analysis and were reported to be satisfactory.

Note: Tabulated summaries of all water samples taken and results of examination are shown on pages 44, 45, 46 and 47.

#### CORPORATION BATHING POOL

The Open-air Bathing Pool opened in 1938 has accommodation for 1,200 bathers. The main pool is 150 feet long by 75 feet wide and has two shallow areas and a diving pit. The diving apparatus includes the following diving boards:—1 metre fixed; 1 metre spring; 3 metre fixed; 3 metre spring; and a 5 metre fixed and a chute.

The 400,000 gallons of water in the pool are filtered, aerated and sterilised.

Wide surrounds and large areas are provided for sun-bathing, whilst a spectators' terrace surrounds the site.

On the first floor of the building a Cafe and Spectators' Gallery is provided, affording a splendid view of the whole site.

There is also a Children's Paddling Pool, 50 feet by 50 feet, with its own surround, separated from the main pool by a terrace.

During the 1957 season the following persons used the Pools:—

Bathers and Sp	ectators	 	• •		• •	90,044
Schools		 • •	ф А		• •	23,471
Season Pass	• •	 	• •	• •		7,011
Clubs		 • •		• •		3,929
H.M. Forces		 • •				1,845
						126 300

#### HYGIENIC ARRANGEMENTS.

The Medical Officer of Health has continued to keep the hygienic arrangements at the Pool under supervision. "Breakpoint Chlorination," which was put into operation in 1948 appears to be working efficiently.

#### BACTERIOLOGICAL EXAMINATION OF WATER.

Twelve examinations were made. See tabulated summary on page 47.

#### SLIPPER BATHS.

The Slipper Baths at the Corporation Bathing Pool were opened in January, 1949.

There are separate sections for males and females—7 baths being allocated to males and 3 to females.

This service is working very satisfactorily and is much appreciated by the residents of the town. The attendances for the year 1957 were as follows:—

Males Females	• •	• •	14,085 2,571
			16,656

# ADMINISTRATION OF FACTORIES ACT, 1937.

The Council has the duty to enforce certain provisions of Parts I, IV and VIII of the Factories Act, 1937.

Administrative arrangements include the following:—

# Part I—Health (General Provisions).

(1) Registration of all factories.

(2) Inspection of sanitary conveniences in all factories.

(3) Inspection with regard to cleanliness, overcrowding, temperature, ventilation and drainage of floors in all factories in which mechanical power is not used.

#### Part IV—Basement Bakehouses.

(1) The quinquennial examination of basement bakehouses and the renewal or cancellation of Certificates of Suitability.

#### Part VIII—Home work.

(1) Examination of lists, supplied to the Council by employers of outworkers in certain specified trades.

(2) Notification of name and place of employment of any home worker employed outside the Borough to the Council in whose district his employment is situated.

(3) Inspection of premises in which the outworker pursues his occupation.

The provisions of the Act, so far as they effect local authorities, have been enforced. The following table shows the work carried out:—

### 1. Inspections for the purpose of provisions as to health:—

			Nun	nber of

# THE RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951.

It is the duty of the Council to enforce the provisions of this Act. These duties include the following:—

- 1. The inspection and registration of premises where filling materials are used in activities laid down in the Act.
- 2. The inspection and licensing of premises where rag flock is manufactured or stored.
- 3. The inspection of records to be kept under the Act.
- 4. Where considered necessary the taking and testing of samples of filling materials.

The Act is intended to provide a comprehensive measure for the adequate control of the manufacture and use of filling materials and to ensure that high standards of cleanliness are maintained.

Two premises are registered within the district and these have been kept under supervision.

## PET ANIMALS ACT, 1951.

It is the duty of the Council to enforce the provisions of this Act.

The Act provides for a system of licensing and inspection by local authorities of pet shops, the main purpose being the enforcement of the Protection of Animals Act in their application to the business of selling pets.

Four premises are licensed within the district and these have been kept under supervision.

#### CESSPOOL AND PAIL SYSTEM.

There are still approximately 750 premises in the Eastern and Southern parts of the Borough where the drainage discharges into cesspools.

The Health Department is responsible for this work but the actual emptying of cesspools is carried out on behalf of the Department by the Borough Engineer's Department, a combined road gully and cesspool emptying machine being used for the purpose.

During the year, 11,900 tons of sewage were removed, requiring 919 emptyings, compared with 11,476 tons requiring 876 emptyings during the previous year.

Approximately 16 pails are in use in the Borough, of these 8 are emptied twice weekly by the Public Health Department and the remainder are dealt with by the owners or occupiers.

#### HOUSE AND TRADE REFUSE REMOVAL AND DISPOSAL.

#### (a) COLLECTION.

Ten Shelvoke & Drewry freighters are used for this service. These include two 16-18 cu. yd. capacity "Fore and Aft" tipping freighters, which replaced two of the smaller type vehicles.

One of the vehicles is also used for the collection of trade refuse from business establishments; collections being made more frequently than in the case of ordinary domestic refuse.

Refuse collected during the year amounted to 13,463 tons, compared with 13,754 tons the previous year, these amounts being ascertained by test weighing.

#### (b) DISPOSAL.

All refuse is disposed of by controlled tipping. During the year agreement was reached with Northfleet Urban District Council for the joint use by the two authorities of a licensed chalk pit in Vale Road, Northfleet for refuse disposal purposes The tip is operated by the Northfleet Council and the cost is borne by each authority on a proportionate basis, according to population.

Part tipping commenced at the Northfleet tip on 22nd August, 1957, and full tipping from 18th September, 1957.

Prior to these dates all refuse was tipped on land at Denton marshes. This tip was in use from 8th March, 1944, to 17th September, 1957, and during this period 81,877 loads of house refuse weighing approximately 159,625 tons were tipped.

#### SALVAGE.

An Austin truck is used for the separate collection of waste paper.

Salvaged materials collected and sold during the year were as follows:—

					We	ight		Value
	Materials	3		T.	C.	Q.	lbs.	£ s. d.
Waste paper	• •	• •		456	9	2	0	3,742 11 1
Metals	• •	• •	• •	8	6	1	2	43 13 5
Textiles and string	g		• •		18	3	21	10 13 8
				465	14	2	23	£3,796 18 4

#### DISINFECTION OF PREMISES.

Disinfection of rooms and bedding where necessary for the prevention of infectious diseases was carried out at 45 premises.

#### PUBLIC CONVENIENCES.

The Health Department is responsible for the staffing and cleansing of public conveniences in the Borough and the collection of receipts therefrom.

One underground convenience, with male and female sections is situated in Parrock Street and includes washing facilities. Male and female attendants are employed at this convenience.

One convenience for females, provided with attendants and washing facilities is situated on the Gordon Promenade, but is only open during the summer months.

One convenience for females and one for males are situated in Fort Gardens. An attendant is employed at the females' convenience during entertainments in the summer.

Other small public conveniences, 8 for men, 3 for women and 2 for children, are situated in various parts of the Borough. These are without washing facilities or attendants.

Conveniences at 13 licensed premises are also cleansed by Health Department employees in consideration of the fact that they are available for the use of the general public at all times.

Conveniences attached to other licensed premises have also been kept under supervision.

#### RODENT CONTROL.

Under the Prevention of Damage by Pests Act 1949, it is the duty of the Local Authority to take such steps as may be necessary to secure, as far as practicable, that their district is kept free from rats and mice, and in particular:—

- (a) From time to time to carry out such inspections as may be necessary for the purposes aforesaid;
- (b) to destroy rats and mice on land of which they are the occupier and otherwise to keep such land as far as practicable free from rats and mice;
- (c) to enforce the duties of owners and occupiers of land under the following provisions of this part of this Act, and to carry out such operations as are authorised by those provisions.

All infested premises notified to the Health Department or discovered during the course of inspection during the year were dealt with. The cost of disinfestation at business premises by the Council's Rodent Officer is charged to the occupiers, but the work at dwelling houses is carried out free.

The following report summarises the work carried out by the Rodent Officer during the year 1957:—

Infested premises under treatment at the end of 1956	• •	• •	18
Premises found to be infested during 1957		• •	274
Premises treated and cleared	• •		272
Premises still under observation at the end of the year			20
Total number of visits			2,145

# SECTION "E"

# INSPECTION AND SUPERVISION OF FOOD.

Inspection of food premises is being maintained, and the following is a summary of the visits made and the results of inspection:—

		No. of premises	No. of visits		ber of notices Complied with.
		premises	VISIIS	serveu.	Compuea wun.
Bakehouses	• •	13	25	Andrewson.	1
Butchers	• •	29	165	7	5
Cake and bread shops	• •	20	23	2	3
Canteens	• •	29	41		6
Catering premises	• •	47	142	4	6
Confectioners	• •	44	76	1	2
Cooked meat shops		26	33	-	
Dairies and milkshops		76	131	der Representation	
Licensed premises		95	77	1	2
Fish-frying establishments		17	33	en-day-thickness.	Andrewson.
Fishmongers		10	64		1
Greengrocers		50	263	6	7
Ice cream premises		135	156	Arribonomia	-
Provision dealers		111	331	10	9
		702	1,560	31	42

Note.—Where premises carry on more than one type of business they are recorded under each appropriate type.

Forty-nine premises are registered under Section 16 of the Food and Drugs Act 1955 for the preparation or manufacture of sausages or potted, pressed, pickled or preserved food intended for sale, and 17 for the preparation and sale of fried fish.

#### MILK SUPPLY.

There are no dairy farms in the Borough. Dairies other than dairy farms and milk distributors are registered by local authorities and there are now on the register 2 dairies and 74 distributors.

#### BACTERIOLOGICAL EXAMINATION OF MILK.

One hundred and seventy-one samples of milk were taken and submitted for bacteriological examination and the following is an analysis of the results obtained:—

	No. of			
Designation.	Sample	$^{\prime}S$	Results.	
Pasteurised	120	Methylene Blue Test	Satisfactory	73
			Unsatisfactory	0
		Phosphatase Test	Satisfactory	47
		*	Unsatisfactory	0

Designation.	No. of Sample		Results.	
Tuberculin Tested (Pasteurised)	47	Methylene Blue Test Phosphatase Test	Satisfactory Unsatisfactory Satisfactory Unsatisfactory	24 0 23
Sterilised	4	Turbidity Test	Satisfactory Unsatisfactory	4 0

MILK (SPECIAL DESIGNATION) (RAW MILK) REGULATIONS, 1949 TO 1954.

MILK (SPECIAL DESIGNATION) (PASTEURISED AND STERILISED MILK) REGULATIONS, 1949 TO 1953.

Licences issued under these Regulations were as follows:—

"Tuberculin Tested"	Dealer's Licences Dealer's Supplementary Licences	• •	• •	6
"Pasteurised"	Pasteuriser's Licences Dealer's Licences Dealer's Supplementary Licences	• •	• •	2 19 5
"Sterilised"	Dealer's Licences Dealer's Supplementary Licences	• •		70 3

#### ICE CREAM.

One hundred and thirty-four premises are registered under Section 16 of the Food and Drugs Act, 1955, for the sale of ice cream, and one for the manufacture and sale of ice cream. One hundred and fifty-six inspections were made in 1957.

Forty-three samples of ice cream were taken and submitted for bacteriological examination with the following results:—

	•	Number	of Samples
Grade 1	• •	• •	35
Grade 2	• •	• •	8
Grade 3	• •	• •	
Grade 4	• •	• •	distance.
			43
		_	

#### SLAUGHTERHOUSES.

There is one licensed slaughterhouse in the Borough. Visits of inspection made during the year numbered 69.

The provisions of the slaughter of Animals Act, 1933 to 1954 relating to humane

slaughtering of animals have been complied with. The number of slaughtermen holding licences at the end of the year was 11.

Carcases and Offal inspected and condemned in whole or in part.

#### PARTICULARS OF ADULTERATED SAMPLES.

Sample No. 88.

A sample of peppermint rock contained an excess of Rhodamine B. colouring matter. The matter was taken up with the manufacturers by the local authority in whose area the rock had been purchased.

Sample Nos. 145 and 147.

Two sample of sausages contained preservative which had not been declared and therefore did not comply with the Preservative Regulations. A letter of caution was sent to the manufacturer.

Sample No. 160.

A sample of ground ginger, although not adulterated, was reported to be of old stock and short in weight. The trader concerned agreed to withdraw from sale the remainder of his stock.

THE DISEASES OF ANIMALS (WASTE FOODS) ORDER, 1957.

Five licences to operate plant and equipment for the boiling of waste foods were issued.

### SECTION "F"

## PREVALENCE AND CONTROL OVER INFECTIOUS AND "OTHER DISEASES."

### INFECTIOUS DISEASES.

The following notifiable infectious diseases were recorded:—

Measles		• •	• •	• •	345
Whooping Cough	• •		• •	• •	182
Tuberculosis—Respiratory	y		• •	• •	29
Non-Respira	atory			• •	6
Pneumonia	• •	• •		• •	21
Scarlet Fever			• •	• •	29
Erysipelas	• •		• •	• •	1

Dysentery		• •		• •	1
Typhoid Fever	• •		• •	• •	1
Food Poisoning	• •		• •		2
Meningococcal Infection			• •		3
					-
			Tot	al	630

A table showing other particulars is given on page 8.

There were no cases of Smallpox or Diphtheria.

### Institutional Accommodation for Infectious Diseases.

Patients needing institutional accommodation for treatment or isolation were sent to Joyce Green Hospital, Dartford.

Other arrangements include the following:—

- (a) Ophthalmic Neonatorum—Kent Ophthalmic Hospital, Maidstone.
- (b) Smallpox—The River Hospital (Long Reach) Dartford.
- (c) Tuberculosis—Bow Arrow Hospital, Dartford, and other hospitals and sanatoria arranged by the Chest Physicians.

### DIPHTHERIA IMMUNISATION.

This work is under the control of the Kent County Council and the following arrangements are in operation:—

- 1. Immunisations are carried out at special sessions at the Welfare Centres and School Clinics.
- 2. Immunisations on behalf of the Local Health Authority are carried out by General Practitioners at their surgeries.
- 3. Notices are sent to every infant at the age of 8 months.

4. The Health Visitors follow up all cases in which there is no record of the injections having been given.

The following is a return of the number of children resident in the Borough who were immunised against diphtheria during the year ended 31st December, 1957:—

Year of Birth.	Primary Inoculation.	Re-inforcing Inoculations.
1957	41	
1956	303

### TUBERCULOSIS.

Close co-operation has been maintained between the Health Department and the Chest Physicians.

### Diagnosis.

The Chest Clinic is provided at the Gravesend and North Kent Hospital where patients are seen every Wednesday at 9 a.m.

### MASS RADIOGRAPHY.

We were fortunate in having a third visit from the Mass Radiography Unit during 1957. The campaign was opened by His Worship the Mayor, Alderman W. A. Wyatt, J.P., on the 15th February, 1957.

Dr. G. Rees Jones, the Director, Mass Radiography Service, has kindly supplied the following statistics:—

Christchurch Parish Hall, Central Avenue. 6th-14th March, 1957, inclusive.

Number of Volunteers:—

Results:—

Active	tuberculosis	<del></del>	Inactive tuberculosis—
	Males	1	Males 7
	Females	<del></del>	Females 11
			****
		1	18

Number of Volunteers:—

Males	1,750
Females	2,451
	4,201

Results :--

Active tubercul	losis—	Inactive	tuberculosis—
Males	3	Males	9
Females	4	Females	27
			***************
	7		36

Carcinoma of the lung—Male 2.

St. Aidan's Church Hall, St. Aidan's Way, 24th—30th April, 1957, inclusive.

Number of Volunteers:-

Males	351
Females	600
	95′

Results:—

Active tube	rculosis—	Inactive tub	perculosis	<u>, —</u>
Males Females	3	Males Females	4 5	
	3		9	

It will be noted that the statistics included in this report apply only to volunteers from the general public and small business establishments. The results of an extensive survey covering senior school children, teaching and non-teaching staff and particulars of examinations in factories in the district, have not been included.

Public Health (Tuberculosis) Regulations, 1952.

NOTIFICATION OF NEW CASES.

In 1957, 35 fresh cases were notified. The following table gives comparative particulars over the last ten years:—

	Estimated Population of Registrar		Non-	
Year.	General.	Pulmonary.	Pulmonary.	Total.
1948	42,890	48	7	55
1949	43,250	82	10	92
1950	44,290	65	9	74
1951	44,280	54	1	55
1952	45,260	77	3	80
1953	45,530	48	3	51
1954	45,960	57	6	63
1955	46,390	36	3	39
1956	47,670	31	5	36
1957	46,930	29	6	35

The sources from which the notifications of tuberculosis were received:—

Chest Physicians ... 25
Private Medical Practitioners .. 4
Hospitals and Institutions ... 6

### AGE AND SEX DISTRIBUTION.

The following table shows the age and sex distribution of our 35 new cases:—

### DEATHS AND DEATH RATE

There were 7 deaths registered from Pulmonary Tuberculosis. This gives a death rate of .14 per 1,000 population for all forms of tuberculosis.

The following table compares the figures for 1957 with those of previous years:—

	Pulr	nonary	1	Von-Pulmonar	ry Total
Year.	Number.	Rate per 1,000 Pop.	Number.	Rate per	Rate per 1,000 Pop.
1948	23	.54	2	.05	.58
1949	24	.55	2	.05	.60
1950	14	.32	_		.32

1956	4	.08	1	.02	.10
1957	7	.14	STATE OF THE PARTY		.14

### TUBERCULOSIS REGISTER.

The names of 53 persons were removed from the Register for the following reasons:—

• •		• •	6
	• •		24
			19
	• •	• •	1
	• •		1
lical Trea	itment		2
			53
	firmed lical Trea	firmed	

Five hundred and seventy-nine persons remained on the Register at the 31st December, 1957. They consist of the following:—

	Males.	Females.	Total.
Pulmonary	307	232	539
Non-Pulmonary	19	21	40
	326	253	579

### ADMISSION TO HOSPITAL AND SANATORIA.

Twenty patients suffering from pulmonary tuberculosis were admitted during the year. There has been a continued improvement in obtaining early admission to hospital and sanatoria, and the delay in obtaining admission for patients needing Thoracic Surgery has been considerably reduced.

### B.C.G. VACCINATION.

A substantial number of children have been vaccinated with B.C.G.

### LEGAL PROCEEDINGS.

No action was necessary during the year under the Public Health (Prevention of Tuberculosis) Regulations, 1925, or under Section 172 of the Public Health Act, 1936.

### VENEREAL DISEASES.

Dr. C. D. Routh, the Medical Officer in charge of the Gravesend Clinic, has kindly supplied the following statistics:—

New Patients—Gravesend.	Males.	Females.	Total.
Syphilis	1	2	3
Gonorrhoea	17	8	25
Non-Gonococcal Urethritis (Males only)	34	-	34
Non-Venereal	27	12	39
	79	22	101

Crahilia	Males.	remaies.	10tai.
Syphilis	5	1	_
Gonorrhoea	36	22	38
Non-Venereal	126	22	148
			100
	167	25	192

There were no defaulters from the Gravesend area in 1957.

### CLEANLINESS, GOOD HEALTH AND ELIMINATION OF VERMINOUS CONDITIONS.

The Health Visitors and Public Health Inspectors have been active in their educative work in regard to cleanliness and freedom from vermin.

### ERADICATION OF VERMIN.

The work of disinfestation of Council houses is carried out by the Local Authority infested rooms being sprayed with an insecticide.

Premises belonging to private owners are also disinfested on request and the cost of the work is charged to the persons concerned.

Five houses were disinfested by the Health Department during the year.

### BOROUGH MORTUARY.

The Mortuary, situated in Swan Yard, provides facilities for six bodies and there is a well equipped post-mortem room.

During the year, 121 bodies were received and 121 post-mortem examinations performed.

### Coroner's Inquests.

### H.M. Coroner has kindly supplied the following information:—

Total number of inquests	32
Number of inquests without post mortems	
Number of post mortems without inquests	90

### Verdicts:—

Accidental deaths	 	• •	22
Suicides	 		7
Found drowned	 		

### Other Verdicts:—

- 1. Natural causes.
- 2. Adjourned under Section 20 of the Coroner's Amendment Act, 1926 and not resumed.

### CHEMICAL ANALYSIS OF DRINKING WATER.

		Leith	n Park Road Well.	Leith Park Road Reservoir.
Date taken			1.10.57	1.10.57
Appearance		• •	Clear	Slightly turbid
Odour		• •	Nil	Nil
Chlorine in Chlorides		• •	23	23
Nitrogen in Nitrates	• •	• •	10.0	10.0
Saline Ammonia	• •	• •	Nil	Nil
Albuminoid Ammonia		• •	0.01	0.01
Oxygen absorbed in 4 hours		• •	0.08	0.08
Hardness, total	• •	• •	320	318
Hardness, permanent		• •	60	53
Total solid matter	• •	• •	433	424
Microscopical examination		Unimp	ortant	Slight deposit of chalk

Remarks: Both samples were in a satisfactory condition and suitable for diatetic use.

Note:—The numerical results are expressed in parts per million.

BACTERIOLOGICAL EXAMINATION OF BATHING POOL WATER.

Date taken.	Where taken.	B. Coli (presumptive) per 100 ml.	Faecal B. Coli per 100 ml.	Remarks.
22.5.57	Deep end	None	None	Highly satisfactory
	Shallow end	None	None	Highly satisfactory
	Paddling pool	None	None	Highly satisfactory
18.6.57	Deep end	None	None	Highly satisfactory
	Shallow end	None	None	Highly satisfactory
	Paddling pool	None	None	Highly satisfactory
3.7.57	Deep end	None	None	Highly satisfactory
	Shallow end	None	None	Highly satisfactory
	Paddling pool	None	None	Highly satisfactory
28.8.57	Deep end	None	None	Highly satisfactory
	Shallow end	None	None	Highly satisfactory
	Paddling pool	None	None	Highly satisfactory

### ATMOSPHERIC POLLUTION

Data extracted from the Analyst's monthly reports was also supplied to the Thameside Joint Committee in the form shown in the following tables.

(See notes at end of tables for details of abbreviations).

Site: Dashwood Lane, Nurseries.

Abbreviations:—

TWIM—Total water insoluble matter.

S/CS2—Soluble in carbon bisulphide.

OCM—Other combustible material.

TWSM—Total water soluble matter.

Ca—Calcium.

Cl—Chloride.

SO4—Sulphur calculated as Sulphate.

TS—Total solids.

Estimation of Sulphur by Lead Peroxide Method.

Estimated as sulphate and reported as weight of Sulphur Trioxide in milligrammes per 100 sq. cm. per day.
